Program does not show text correctly

Otto - 2020-04-27 - 0 Comments - in General Issues

This article relates to the incorrect column display issue in Concrete base design.

The misaligned columns are caused by the use of a DPI scaling of 125% or larger.

Before:

Resolving this issue:

1. Run a Live Update (PROKON Calcpad > Home > Live Update) in order to obtain the latest version of Concrete Base Design.
2. If this problem persists, click the relevant link below on how to change your size of text, apps and other items"

- [Changing the size of text, apps and other items in Windows 7](#)
- [Changing the size of text, apps and other items in Windows 8](#)
- [Changing the size of text, apps and other items in Windows 10](#)
- [Set Custom Text Size \(DPI\)](#)

After:

File Edit View Window Help

File: C:\Program Files\Autodesk\InRoads\bin\inroad.exe

View: To edit the values in the table, click on a cell.

Layer	Type	Attributes					
		Color	Lineweight	Style	Width	Height	Depth
0	Point	1	2.0	1	0.0	0.0	0.0
1	Line	1	2.0	1	0.0	0.0	0.0
